

Year 9

Health and Physical Education

9HPE

Course Outline 2026

Course Description / Course overview / Driving Question:

Our driving question is how can we become the most healthy versions of ourselves?

Learners will look at factors that influence participation, movement and identify solutions and strategies to improve hauora for themselves and others.

Learners will experience opportunities in authentic context, using the underlying concepts to look at what it means to be healthy.

Topic:	Ideas / Context / Key learning outcomes	Timeframe
Hauora	Learners will participate in activities and create a portfolio reflecting on their experience, using a model of health to explain the impact it had on their hauora.	10 weeks (10 lessons)
Health Promotion	Learners will take action to set goals and participate in activities to create a program to improve their own Taha Tinana. Learners will build knowledge and make sense of health hygiene practices, physical responses to physical activity and the benefits of regular physical activity to hauora.	10 weeks (10 lessons)
Socio-Ecological Perspective	Learners will be curious and look into barriers and enablers to physical activity and the impacts these have at a self, others and societal level.	10 weeks (10 lessons)
Attitudes & Values	Learners will use Hellison's model of social responsibility to build knowledge and make sense of the impact respecting themselves, others and the environment has by creating a reflective portfolio on their experience.	10 weeks (10 lessons)

Curriculum Area: Health and Physical Education

Google Classroom Code:

All Learning Tasks, Home Learning, assessment booklets and due dates can be found on google classroom.

This is a great way to connect with your child's learning in Physical Education.

Learners Require: Alfriston College Physical Education uniform, pen and a chromebook. A phone is not an adequate learning device.
