Year 9

Socio-Ecological Perspective

The learning within this booklet will frame your assessment and be marked by your Learning Leader.

This work must be completed to a high standard and be completely your own. Any plagiarism will result in *No Evidence NE* grade and contact home will be made.

Learning Objectives: Learners will build knowledge and make sense of what is socio-ecological perspective and how it is an influencing factor. Learners will identify what and who makes up each perspective. Learners will be curious about barriers and enablers to physical activity in New Zealand and the impacts these have at a personal, interpersonal and societal level.

Success Criteria: Learners will know they have been successful when they have engaged positively with others and completed the practical and theory learning.

Learner Instructions: Within this unit of work learners are to take part in both practical and theory lessons. This means you will need to be prepared for learning each lesson with a pen, PE uniform and chromebook.

Marking Criteria

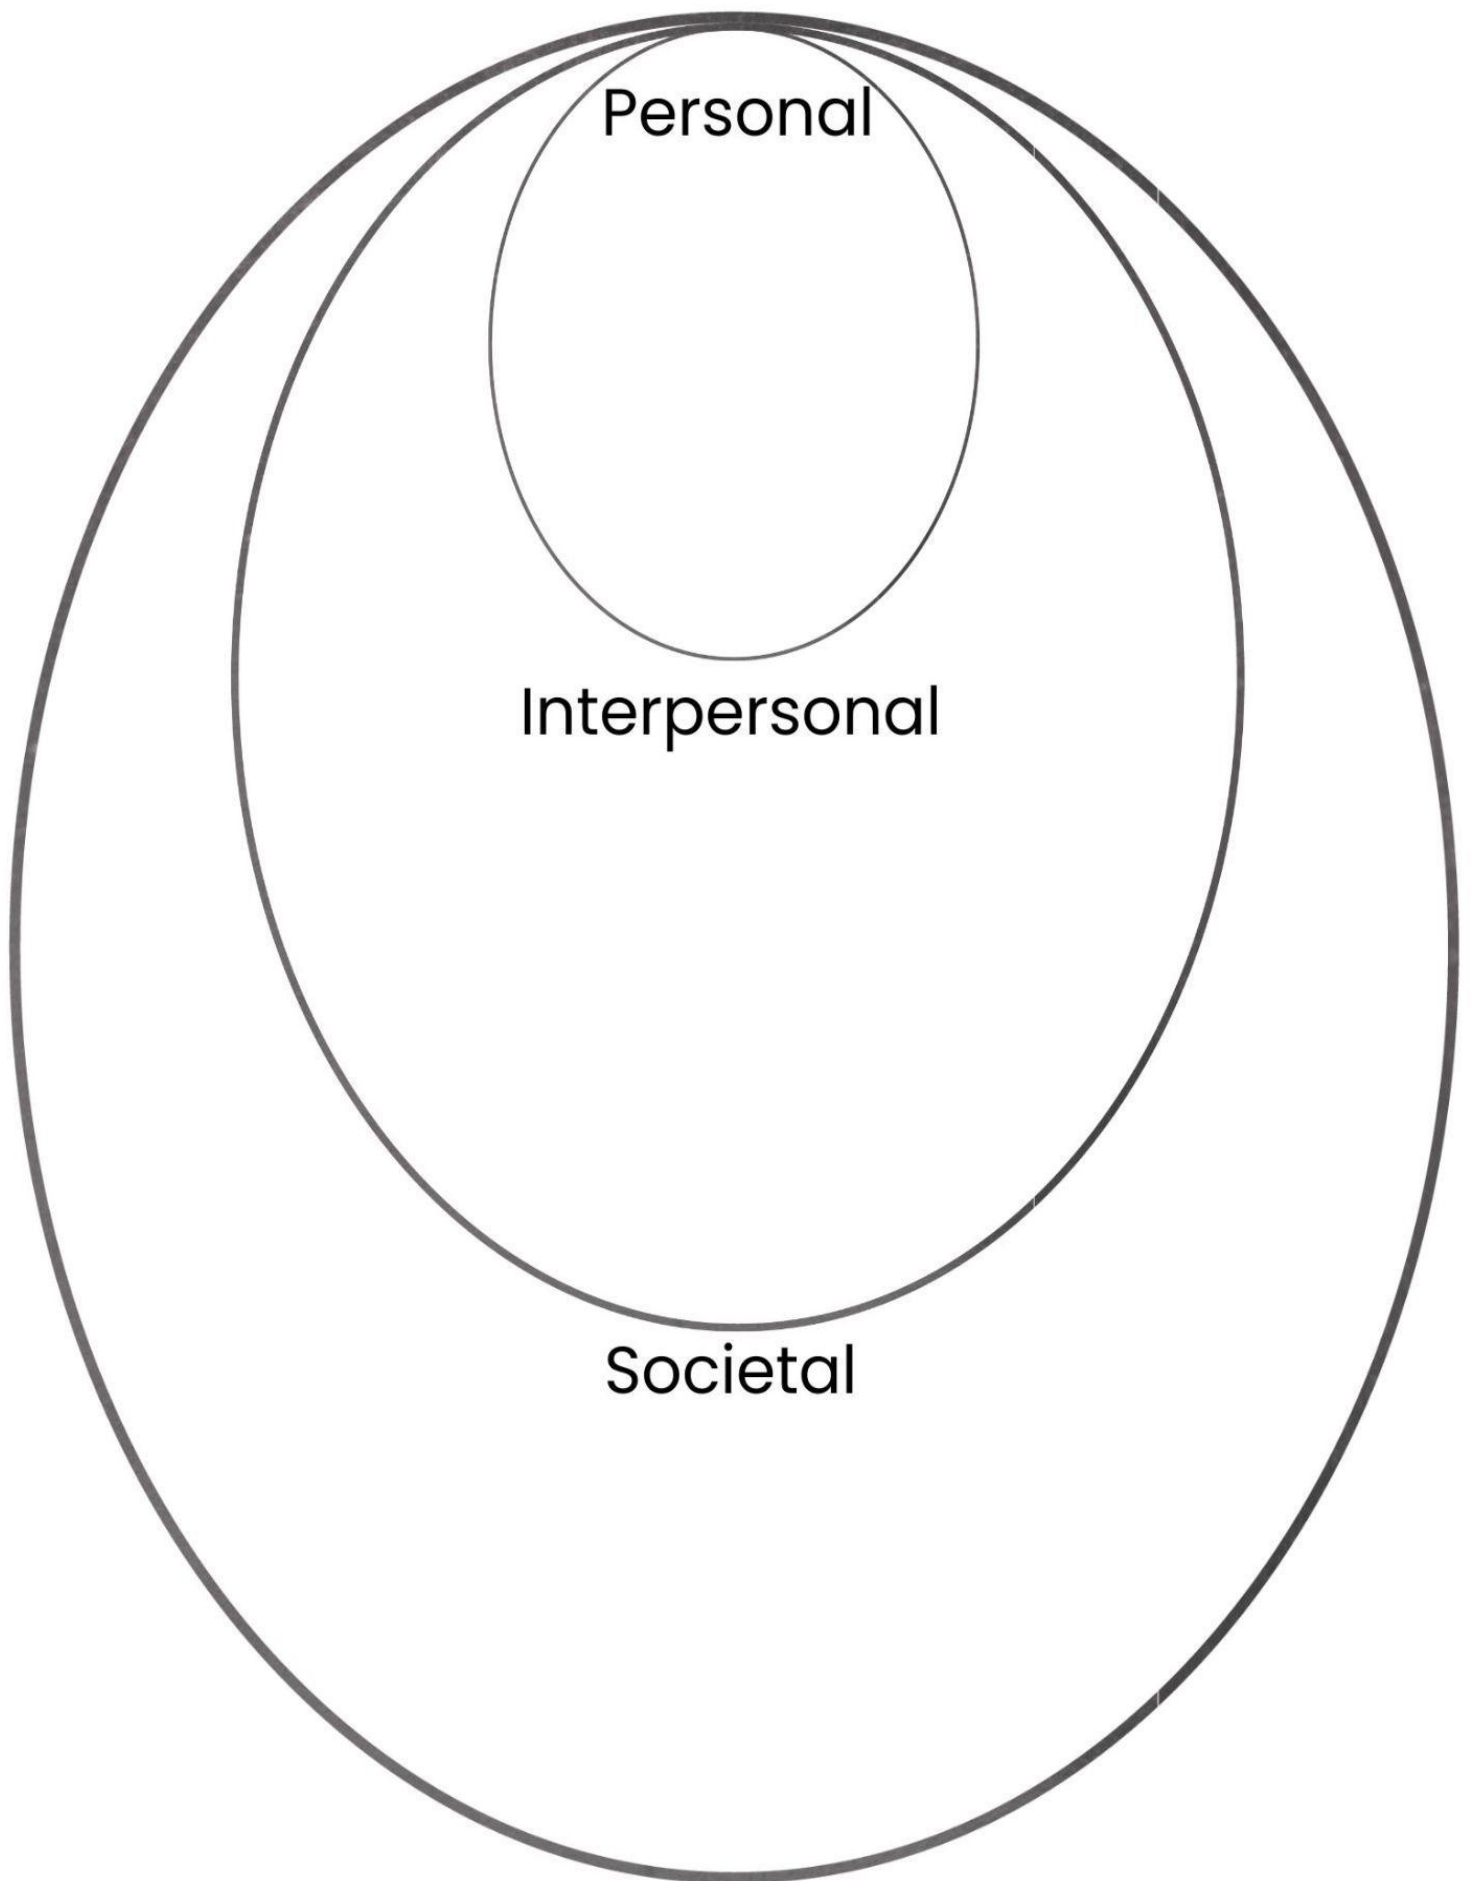

No Evidence NE	Emerging EM	Effective EF	Exemplary EX
Learner did not come prepared or engage / engaged very little in practical and theory learning. Learner does not have enough evidence to demonstrate understanding of socio-ecological perspective.	Learner comes prepared and has engaged well during theory and practical learning. Learner is able to correctly identify what and who makes up each perspective.	Learner comes prepared and has engaged well during theory and practical learning. Learner is able to correctly identify identify what and who makes up each perspective. Describe using examples barriers and enablers to physical activity in New Zealand.	Learner comes prepared and has engaged exceptionally well during theory and practical learning. Learner is able to correctly identify identify what and who makes up each perspective. Describe using examples barriers and enablers to physical activity in New Zealand and the impacts these have at a personal, interpersonal and societal level.

Task 1: For each of the words below you are to write a definition that you understand, draw an image to show your understanding and give an example of the meaning.

Word	Definition	Image	Example
Personal			
Interpersonal			

Society			
---------	--	--	--

Task 2: In the image below is an empty model of socio-ecological perspective. Inside each of the three perspectives are currently empty. You need to identify as many examples for each perspective, personal, interpersonal and societal.

Task 3: For each of the words below you are to write a definition that you understand, draw an image to show your understanding and give an example of the meaning.

Word	Definition	Image	Example
Barriers			
Enalblers			
Equal			
Equitable			

Task 4: In the space below you are to design and create a piece of visual art to demonstrate your understanding of differences between equal and equitable.

Task 5: Read through the paragraph below from the stuff article, *When money is scarce, affording sport is too high a hurdle for many.*

(Mary) Her full-time salary doesn't stretch far enough to cover fees, uniforms, shoes and other costs associated with sport. She can only afford to put two children at a time into playing sport, meaning the others have to stand on the sidelines while their older siblings play.

Her two boys – the youngest in the family – have never been in a sports team or club. Her four daughters share netball equipment.

She and her husband have tried stretching the budget to ensure all her children can participate, but with that comes sacrifices – less spent on clothes, food, bills and foregoing other family outings. It's been a struggle.

a. Identify by highlighting in the article who is being discussed at a personal level and who is being discussed at an interpersonal level.

b. Identify what do you feel is the largest barrier to participation from the article

c. Explain using examples how this barrier impacts at a personal level.

d. Explain using examples how this barrier impacts at an interpersonal level.

As a class, break down how this impacts at a societal level.

Reflection: Throughout the term you are to take part in a variety of ACTIVITIES where barriers and enablers are influencing your ability to participate. During each activity you are to engage positively and reflect on factors influencing your ability to participate.

Use the sentence starters below to help guide you.

Today's activity was *(name and describe the activity)*.

One *(barrier / enabler)* to participation in today's activity was *(identify the barrier or enabler)* This was because *(describe how this barrier/enabler limited or increased participation)*.

The impact this had on myself was *(positive / negative)* because *(explain using examples from your experience how it impacted you personally)*.

The impact this had on others was *(positive / negative)* because *(explain using examples from the experience how it impacted those in your class)*.

A real life example of this activity in the community could be *(explain using examples how this activity could compare with a real life situation in the community)*.

This has a *(positive / negative)* impact on *(who in the community does this impact)* because *(explain using examples how it has its impact on those in the community)*.
