

Level 1 Health 11HEA

Course Outline 2026 Semester 2

Course Description / Course overview / Driving Question:

Our driving question is in what ways do the decisions we make affect our hauora, and how can we consciously make choices that promote balance and well-being?

Learners will build knowledge and make sense of different models of health to gain perspective on how hauora is influenced and how we influence others.

Standard:	Ideas / Context / Key learning outcomes	Timeframe	Credits
92008 1.1 Internal Demonstrate understanding of hauora in a health-related context through the application of a model of health	In this assessment, students explore how an activity impacts well-being (hauora) by applying a health model, such as Te Whare Tapa Whā or Te Wheke. They describe and explain the interconnectedness of different well-being aspects, using evidence to support their analysis.	7 weeks 3 lessons in class over Week 10 Tuesday 22nd, Wednesday 23rd & Thursday 24th September	5
92009 1.2 Internal Demonstrate understanding of decision-making in a health-related situation	Students analyze a health-related scenario to understand the decision-making process involved. They examine factors influencing decisions, potential consequences, and the effectiveness of the choices made, providing evidence-based explanations.	7 weeks 3 lessons in class over Weeks 4 & 5 Tuesday 11th, Wednesday 12th & Tuesday 18th August	5

Learning Leader: Mrs Mallory Bridgeman

Contact Details: m.bridgeman@alfristoncollege.school.nz

Curriculum Area: Health and Physical Education

Google Classroom Code: s64l4gmf

All Learning Tasks, Home Learning, assessment booklets and due dates can be found on google classroom. This is a great way to connect with your learning in Health.

Learners Require: Exercise book, pen, Alfriston College Physical Education uniform and a chromebook. A phone is not an adequate learning device.

Level 2 Health

12HEA

Course Outline **2027**

Full Year

Course Description / Course overview / Driving Question:

How can exploring gender identity, sexuality, and adolescent health issues help us better understand the role of societal influences in shaping individual well-being and managing personal change during adolescence?

Level two Health provides learners with a foundational exploration of critical health concepts, including gender and sexuality, managing change, and adolescent health issues. Within the curriculum, students examine the complexities of gender identity and sexual health, understanding societal influences on these aspects of well-being. The course also emphasises skills for managing personal and societal changes, fostering adaptability and resilience. In addition, students critically analyse various adolescent health issues, such as mental health and relationships. This holistic approach equips students with essential knowledge and skills, preparing them to navigate the challenges of adolescence and make informed decisions regarding their well-being.

Standard:	Ideas / Context / Key learning outcomes	Timeframe	Credits
91236 2.2 Internal Evaluate factors that influence people's ability to manage change	Learners assess various factors affecting how individuals cope with change, considering personal, interpersonal, and societal influences.	Term 1	5
91239 2.5 Internal Analyse issues related to sexuality and gender to develop strategies for addressing the issues	This assessment involves examining sexuality and gender-related challenges and formulating strategies to address them effectively.	Term 2	5
91237 2.3 Internal Take action to enhance an aspect of people's well-being within the school or wider community	Learners plan and implement a health-related initiative aimed at improving well-being in their community or school.	Term 3	5
91235 2.1 External: Analyse an adolescent Health Issue	Learners will critically examine a health issue pertinent to adolescents, exploring its causes, effects, and potential solutions.	Term 4	5

Learners Require: Exercise book, pen and a chromebook. A phone is not an adequate learning device
