 - Access to resources

GROUP - SCATTERGORIES

1. Get into groups of 4 - each person must be from a different whanau. Sit in your group of 4
2. On a piece of paper draw the following table:

Healthy Food	Word related to AC or the AC way	Marvel Character	Learning Leader	NZ town	Way to improve your well-being

TASK

Blue Post It Note: Write down what health is to you.

Yellow Post It Note: Write down what you want to get from this course

Orange Post It Note: Write down 3 people that make you the best version of yourself

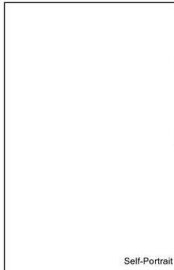

2025

WORKSHEET: WHO AM I?

1. Fill in the worksheet - handwriting needs to be your tidiest!
2. Colour it in using colouring pencils and felts
3. Once complete get a photo taken by Mrs Tamihere
4. Laminate this once your photo has been printed

WHO I AM

	Full Name		My ethnicity/race/culture	
	My hobbies/extra-curricular activities		Graduating Class	My Family
	Birthday			
	An accomplishment I am proud of		Places I Have Lived	
I have never: When I signed my first name	Reason I look the way I do	Pets	Food	FAVORITE
		TV Show	Music/Radio Station	
Qualities of a good math teacher	Most memorable recent event	Book/Magazine	Class/Subject	
		Sport/Team	Movie	
Favorite childhood memory		Color		

L2 HEALTH DO NOW

1. Create a line standing in order of birthdate, youngest to oldest

COURSE OUTLINE

1. Glue this into your books
2. Get into pairs and read the course outline together
3. Create a word list of up to 10 words that you don't understand or what like to know more about

Level 2 Health Course Outline 2025 Semester Full Year

Course Description / Course overview / Driving Question:

How can exploring gender identity, sexuality, and adolescent health issues help us better understand the role of societal influences in shaping individual well-being and managing personal change during adolescence?

Level 2 NCEA Health provides learners with a foundational exploration of critical health concepts, including gender and sexuality, managing change, and adolescent health issues. Within the curriculum, students examine the complexities of gender identity and sexual health, understanding societal influences on these aspects of well-being. The course also emphasises skills for managing personal and societal changes, fostering adaptability and resilience. In addition, students critically analyse various adolescent health issues, such as mental health and relationships. This holistic approach equips students with essential knowledge and skills, preparing them to navigate the challenges of adolescence and make informed decisions regarding their well-being.

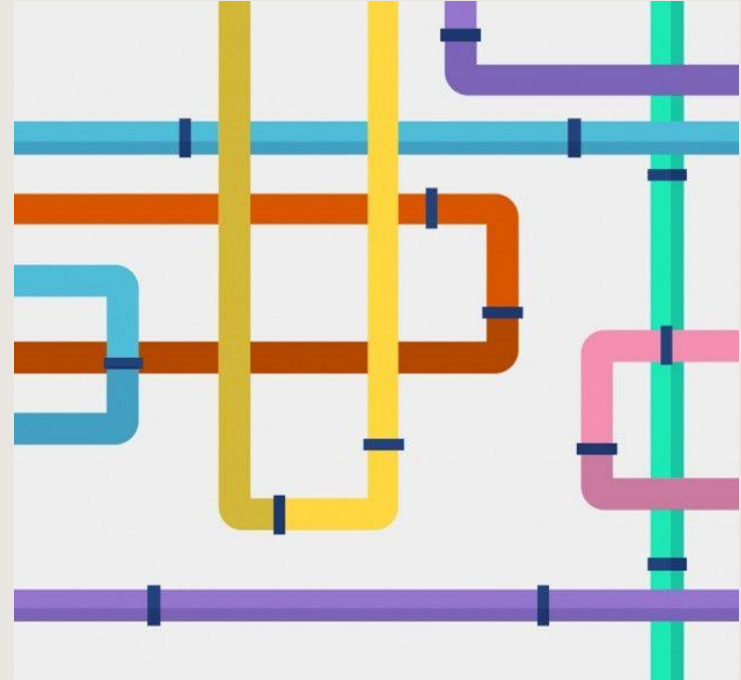

Standard:	Ideas / Context / Key learning outcomes	Timeframe	Credits
91236 H 2.2 <i>Internal</i> Evaluate factors that influence people's ability to manage change	Learners assess various factors affecting how individuals cope with change, considering personal, interpersonal, and societal influences.	Term 1 9 Weeks	5
91239 H 2.5 <i>Internal</i> Analyse issues related to sexuality and gender to develop strategies for addressing the issues	This assessment involves examining sexuality and gender-related challenges and formulating strategies to address them effectively.	Term 2 10 Weeks	5
91237 H 2.3 <i>Internal</i> Take action to enhance an aspect of people's well-being within the school or wider community	Learners plan and implement a health-related initiative aimed at improving well-being in their community or school.	Term 3 10 Weeks	5
91235 H 2.1 <i>External:</i> Analyse an adolescent Health Issue	Students critically examine a health issue pertinent to adolescents, exploring its causes, effects, and potential solutions.	Term 4 3 Weeks	5

GROUPS - PIPELINE

1. Get into groups of 6 - your group must have a range of different people that you have not been in a group with today. Sit in your group of 6.
2. Create a pipeline using the pipes to get your ping pong ball to travel throughout the pipe

REFLECTION

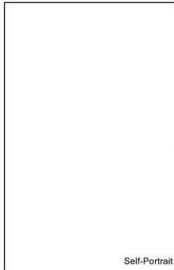

What emotions did you feel when completing that activity? What worked successfully in your team? What didn't work so well?

WORKSHEET: WHO AM I?

1. Fill in the worksheet - handwriting needs to be your tidiest!
2. Colour it in using colouring pencils and felts
3. Once complete get a photo taken by Mrs Tamihere
4. Laminate this once your photo has been printed

LeARNING **OBjECTIVE**

WE ARE LEARNING TO:

- BUILD KNOWLEDGE AND MAKE SENSE OF RESILIENCE
- BUILD KNOWLEDGE OF FACTORS & STRATEGIES THAT IMPACT RESILIENCE

SUCCESS **CRITERIA**

**BY THE END OF THE LESSON, I
SHOULD BE ABLE TO:**

- DEFINE RESILIENCE
- COMPARE AND CONTRAST
RISK FACTORS VS PROTECTIVE
FACTORS

GROUP TASK - RESILIENCE

1. Organise yourselves to get into groups of 4
2. Collect a **RESILIENCE** brain dump worksheet
3. As a group write down all the things you think **RESILIENCE** -
looks, sounds and feels like

**AUMANGEA -
RESILIENT
WHEN THEY ARE
COMFORTABLE
BEING
UNCOMFORTABLE.**

DEFINITION - RESILIENCE

Resilience is “the process of adapting well in the face of adversity, trauma, tragedy, threats or even significant sources of stress - such as family and relationship problems, serious health problems or workplace and financial stressors. It means ‘bouncing back’ from difficult experiences.”

resilience

[ri-zil-yəns] noun • *English*

the capacity of a person to maintain their core purpose and integrity in the face of dramatically changed circumstances. the ability to not only overcome setbacks but to also move forward.

BARRIERS TO RESILIENCE

BEING ALONE

Don't have anyone to lean on or support us

NOT TAKING CARE OF OUR BODIES

Adds physical stress to our bodies, can affect how we see and respect ourselves

FOCUSING ON THE NEGATIVE

No room for positive thoughts makes it harder to find solutions

HOLDING ONTO YOUR FEELINGS

Negative feelings can fester and grow, making it harder to see any positives

LOSING HOPE

Makes it hard for us to see how things can ever get better

HARMFUL COPING STRATEGIES

Relying on harmful actions (i.e alcohol, ignoring the problem etc) can temporarily make us feel better, but doesn't actually solve or help the problem in the long run

ACTIONS THAT BUILD RESILIENCE

STRONG, POSITIVE RELATIONSHIPS

Reminds us we are not alone, getting support from others helps us feel validated

TAKING CARE OF YOUR BODY

Helps us to cope with the physical effects of stress, shows us small parts of our life that we can control

HELPING OTHERS

It feels good to help others which helps give us a sense of purpose, it shows us we are not the only ones who need help and that there are people who want to help us

FOCUS ON YOUR GOALS

Helps us to know we can make changes, and focus on what we really want instead of what we might be lacking

ACCEPT & MANAGE CHANGE

Reminds us there are things we can't change, and to focus on the things we can change

ACTIONS THAT BUILD RESILIENCE

STAY OPEN MINDED

- Staying positive and open to all options helps us to find solutions quicker

POSITIVE OUTLOOK

- Helps us to understand that, just as bad things happen, good things can also, and that better days are coming

REFLECT & LEARN

- Reminds us where we've been, what we've overcome already - which helps us to remain hopeful that we will come through the current difficulties as well

SEEK HELP

- Other people may be able to provide solutions that we may not have thought of, or that we can't access on our own.

GROUP TASK - RISK VS PROTECTIVE

Risk Factors

Increase the likelihood of harm

Protective Factors

Decrease the likelihood of harm

In groups take a Risk Factors & Protective Factors worksheet and highlight the risk factors to someone's well-being in one colour and the protective factors in another colour

Once completed we will go through them as a class

STRATEGIES TO MANAGING CHANGE

PERSONAL

- COMES FROM WITHIN THE PERSON ALONE

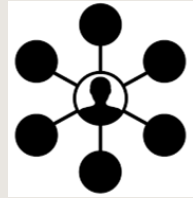

INTERPERSONAL

- COMES FROM THE INTERACTIONS WE HAVE WITH OTHERS/SMALL GROUPS

SOCIETAL

- COMES FROM ANYTHING BIGGER OUTSIDE OF YOU OR THE SMALL GROUPS AROUND YOU

PAIR WORK TASK

Using the worksheet explain:

1. identify three risk factors & three protective factors
2. How can resilience be built
3. come up personal, interpersonal and societal strategies for the following scenario:

Matiu is 45 year old male of Maori descent, from age 18-33 he smoked cigarettes daily and stopped when he had his first child at 33. Recently, his 70 year old father passed away from lung cancer - his father was a heavy smoker. Matiu is still dealing with the loss of his father which has triggered him to have a cigarette every other day to deal with the stress of his fathers, funeral costs and supporting other members of his whanau with the loss of their father. Matiu has a caring wife and has raised her concern over him smoking again. Matiu has agreed to do something about it but is finding it difficult to stop. He has good job that pays good money, where requires him to be physically fit and smoking will have an impact on his work productivity, it is also an expensive habit. He knows that his kids were a good reason for him to give up smoking all those years ago and he doesnt want the same thing that happened to his dad to happen to him.s three children are the most important thing to him. Matiu's wife is concerned that he might take up smoking again and he has agreed that he will try to stop for the sake of his family and the reason for his fathers death, however this is proving easy said then done.

INDEPENDENT TASK - SCENARIO 2

Using the worksheet explain:

1. identify three risk factors & three protective factors
2. How can resilience be built
3. come up personal, interpersonal and societal strategies for the following scenario:

Mary is an 16 year old female at AC. She gets along well with her learning leaders, gets good grades, plays sport and has a part-time job at the local plant store. Although, she is shy and knows people at school she doesn't have any close friends and a lot of the time she feels lonely and like she is missing out socially. Mary's parents have high paying jobs and have high expectations for her to achieve in all the things she is involved in and whilst she likes achieving Mary has come to the realisation that she feels sad more than happy with her life and wants to have more fun in her life. When she tried to talk to her parents about being invited to the movies with people from school on the weekends her parents just said "you can't, cause you have sport and work" and felt she couldn't get through to them

L2 HEALTH DO NOW - WK 4

1. Talk to the person next you about what you think this quote means
2. Discuss what you think about change - is it hard/easy? Is it the same for everyone?

GROWTH MEANS
CHANGE
AND CHANGE
INVOLVES RISKS,
STEPPING FROM
THE KNOWN
TO THE UNKNOWN.

LeARNING **OBjECTIVE**

WE ARE LEARNING TO:

- BUILD KNOWLEDGE AND
MAKE SENSE OF THE SOCIAL
DETERMINANTS OF HEALTH

SUCCESS **CRITERIA**

**BY THE END OF THE LESSON, I
SHOULD BE ABLE TO:**

- NAME THE SOCIAL DETERMINANTS OF HEALTH
 - GIVE EXAMPLES OF EACH OF THE SOCIAL DETERMINANTS OF HEALTH
- 

WHAT DO THEY *mean*?

Socio-Economic

Income, education, employment and community safety

Cultural

The groups of people you associate with their views, traditions and beliefs

Government

The policies, rules and systems that allow or prevent you from access to health support

Social Environment

Upbringing, final capability, family and peer influences

Environment

The physical environment - is it clean, unpolluted and has appropriate facilities to support health needs

IN GROUPS OF 4-5, YOU WILL BE GIVEN ONE SOCIAL DETERMINANT AND COME UP WITH BOTH POSITIVE AND NEGATIVE IMPACTS THEY HAVE ON VAPING

Socio-Economic

Income, education, employment and community safety

Cultural

The groups of people you associate with their views, traditions and beliefs

Government

The policies, rules and systems that allow or prevent you from a

L2 HEALTH DO NOW - WK 4

10:00

Go to university after
Year 13 - have all your
university fees paid for

WOULD **YOU**
RATHER

After Year 13, work a
job that pays a pretty
good salary but is not
your passion

LeARNING **OBjECTIVE**

WE ARE LEARNING TO:

- BUILD KNOWLEDGE AND
MAKE SENSE OF OUR 2.2 MY
RESILIENT ROLE MODEL
ASSESSMENT

SUCCESS **CRITERIA**

**BY THE END OF THE LESSON, I
SHOULD BE ABLE TO:**

- CREATE A LIST OF 5 THINGS
THAT I NEED TO KNOW MORE
ABOUT FOR 2.2

COMPLETE THIS WORD CLOUD

1. Using your chromebook go to this website link - <https://www.menti.com/alumu9bm1jyy>
2. Enter the code - 86304735
3. Type in all the things that you remember learning about in yesterday's health lesson

2.2 - MY RESILIENT ROLE MODEL PART 1

1. Go into your L2 Health Folder in Google Drive
2. Open the 2.2 My Resilient Role Model Assessment
3. Read through the assessment with someone else - if you don't have a chromebook sit with someone who does
4. As you're reading the assessment - write down questions or response under the following headings.

Thinking back to yesterday's lesson what do you feel like need to know more about to complete this assessment?

Questions you have about the assessment?

2.2 - ***MUST KNOWS!***

- Resilient Role Model must be someone who has experienced a significant change that has caused them some type of hardship
- Must be approved by LL (TE)
- There will be a deadline for Role Model Selection - Week 6, Lesson 2
- Examples will be provided to select from
- Checkpoint at Week 8 for each individual learner
- No feedback given in last week of term in lead up to the due date
- Marked over school holidays - grades given at start of Term 2
- Re-submission considered for learners
- Not handing in your assessment is not considered an acceptable standard

MIX & MATCH - SOCIAL DETERMINANTS

Using your prior knowledge, match the picture with heading and the description for the Social Determinants of Health

RISK, PROTECTIVE & STRATEGIES

Describe one risk factor and one protective factor along with one personal, one interpersonal and one societal strategy for one of the following:

- Exposure to bullying and abuse
- Heavy alcohol and drug use
- Mental health - depression & anxiety
- Transient living - moving houses regularly and having to move schools

L2 HEALTH DO NOW - WK 5

10:00

Collect a piece of refill paper and write down all the people you would consider writing about for your **My Resilient Role Model** assessment.

Remember the person needs to have a significant event happened in their life, whereby they have had to go through a change and shown resilience with that change

LeARNING OBjECTIVE

WE ARE LEARNING TO:

- MAKE SENSE OF PERSONAL, INTERPERSONAL, SOCIETAL (**PIPS**) RISK FACTORS, PROTECTIVE FACTORS AND STRATEGIES

SUCCESS CRITERIA

BY THE END OF THE LESSON, I
SHOULD BE ABLE TO:

- IDENTIFY **PIPS** RISK & PROTECTIVE FACTORS IN MY OWN LIFE TO MANAGE MY SELF
- USE **PIPS** STRATEGIES TO MANAGE THE RISK FACTORS IN MY LIFE

RECAP - PERSONAL | INTERPERSONAL | SOCIETAL (PIPS)

PERSONAL

- COMES FROM WITHIN THE PERSON ALONE

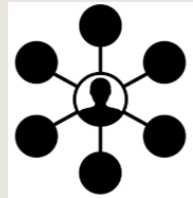

INTERPERSONAL

- COMES FROM THE INTERACTIONS WE HAVE WITH OTHERS/SMALL GROUPS

SOCIETAL

- COMES FROM ANYTHING BIGGER OUTSIDE OF YOU OR THE SMALL GROUPS AROUND YOU

THE IMPACT OF CHANGE ON PIPS

We all have strengths (protective) and weaknesses (risks) when it comes to our well-being. Sometimes our strengths can be our weaknesses and vice versa.

For example: a person who is hard worker or has a good work ethic, maybe stressed, tired and sacrificing quality time with their family.

It is important to be able to identify our protective and risk factors so that when they get out of sync or destabilize us, we can use strategies to support ourselves.

Going through a change can further destabilize or dysregulate us, therefore our strategies need to be robust and we need to build resilience to manage ourselves.

INDEPENDENT TASK

PART 1

Identifying Risk and Protective Factors through PIPS

Using the PIPS diagram, highlight one protective factor and one risk factor from each of the circles.

From your highlight protective and risk factors, annotate on the diagram and give details of who and what that risk and protective looks like in your life (**see example**)

Extension

- Indicate for each factor which social determinant of health impacts this factor and how.

INDEPENDENT TASK

PART 2

PIPS Strategy

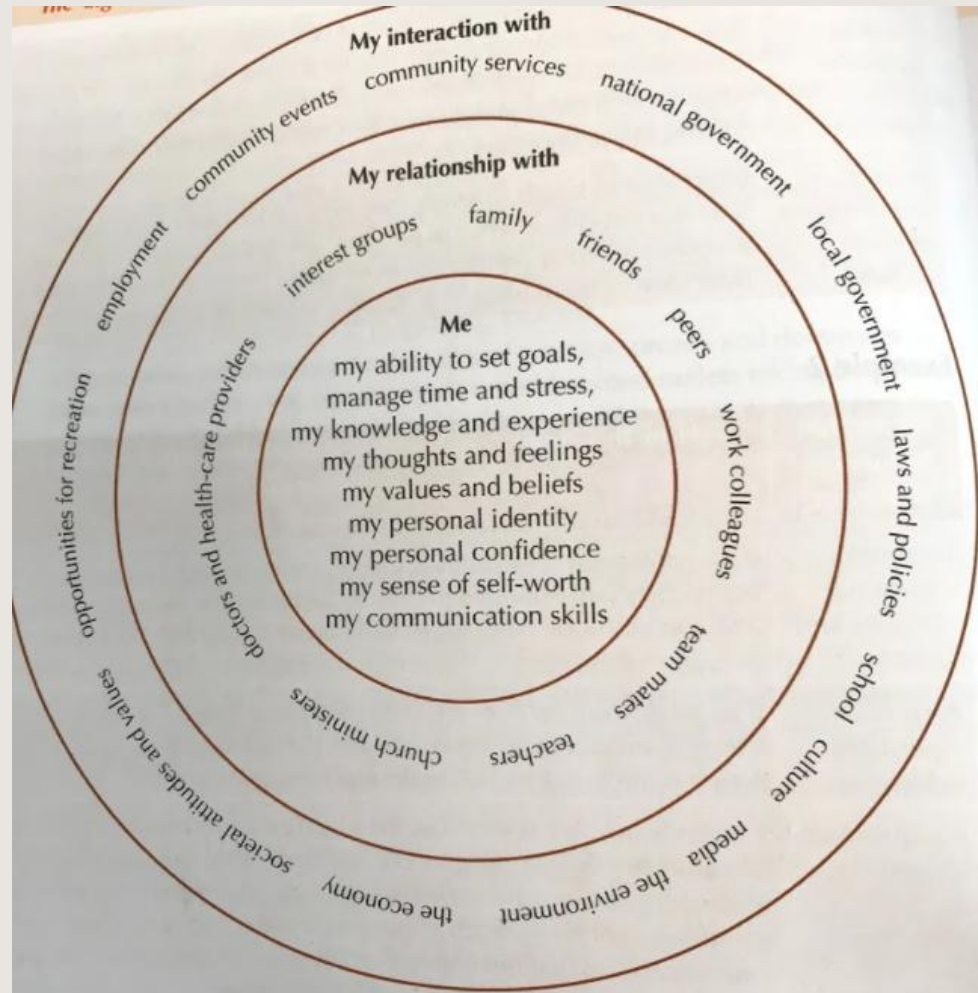

For each risk factor in each of the **PIPS** areas of the diagram. Come up with **Personal, Interpersonal and Societal** strategy.

Example:

If a personal risk factor is poor time management causing stress. A personal strategy could be purchasing a diary to use as a tool to plan out my days, create a routine and to do lists so that I can be more prepared for each day to minimise stress levels.

If a interpersonal risk factor is having friends vape when someone is trying to give up. A interpersonal strategy could be finding another group of friends to socialise with OR having a open conversation with your friends about wanting to give up vaping and ask them if they could support you by not vaping around you when you spend time with them.

Factors that influence well-being

L2 HEALTH DO NOW - WK 5

10:00

1. Collect a Resilient Role Model Checklist and Planning Doc
2. Write your name on both
3. This will be collected at the end of each lesson from now and until you complete your assessment

We will be watching a documentary on James Rolleston and using the planning document as a practice for our actual Resilient Role model

LeARNING **OBjECTIVE**

WE ARE LEARNING TO:

- TAKE ACTION TO IDENTIFY PIPS
RISK AND PROTECTIVE
FACTORS IN REAL LIFE
EXAMPLES OF RESILIENCE

SUCCESS **CRITERIA**

**BY THE END OF THE LESSON, I
SHOULD BE ABLE TO:**

- COMPLETE THE PRACTICE
PLANNING DOCUMENT FOR
MY RESILIENT ROLE
ASSESSMENT

JAMES ROLLESTON

- What do we already know about him?
- Are there any risk factors or protective factors we can identify before we watch the documentary?
- Which Social determinants of Health do you feel might impact him before and after the change?

REMINDER:

When watching the documentary remember to always have the **SIGNIFICANT CHANGE** in mind when identifying PIPS risk and protective factors. This is important as it will help you develop PIPS strategies, as practice for your assessment.

L2 HEALTH DO NOW - WK 5

10:00

Get out your chromebooks

1. Open at least 3 different types of information sources (websites, articles etc) that you are going to help complete your My Resilient Role model assessment

Note: These dont have to be sources that have information about your resilient role model they can be related the health concepts we have been learning about in class

LeARNING **OBjECTIVE**

WE ARE LEARNING TO:

- TAKE ACTION AND PLAN OUT OUR MY 2.2 RESILIENT ROLE MODEL ASSESSMENT

SUCCESS **CRITERIA**

**BY THE END OF THE LESSON, I
SHOULD BE ABLE TO:**

- COMPLETED A 1:1 WITH MRS TAMIHERE
- MAKE SENSE OF HOW TO USE THE STRUCTURE GUIDE FOR 2.2

WRITING STRUCTURE

- Report Style Essay
- Evaluation - review what has happened, review the good and the bad and review what can be improved.
- For Excellence:
 - your evaluation needs to be critical of resilience, risk factors, protective factors and strategies now and in the future
 - Show an understanding of how changes connect/relate with other with other changes
 - Link identified risk factors to social determinants of health or resilience literature
 - Link and explain the relationship of risk factors to strategies
- Writing structure available in your L2 Health Google Drive
- Work bank that may support you with your writing on slide 58

L2 HEALTH DO NOW Tues 4/3

1. Collect a post it, write your name on one side and what part of your 2.2 assessment you want to have completed by the end of the lesson
 2. Put this post it on your Resilient Role Model checklist
- 

RESILIENT ROLE MODEL TO DO LIST

- ✓ Start completing your Planning Doc if you havent done so yet
- ✓ Get your Planning Doc checked by Mrs Tamihere - this needs to be finished by the end of Lesson 2
- ✓ Start writing your assessment:
 - use the writing [structure](#) and the word bank on slide 61 to complete your essay
 - For each paragraph you complete get this signed off by Mrs Tamihere
- ✓ Complete one on one with Mrs Tamihere

L2 HEALTH DO NOW mon 10/3

1. If we all finish our assessment before the end of term, what health content would you like to learn about in class
 2. Write it on a post it note and place it into the box at the front of class
- 

RESILIENT ROLE MODEL TO DO LIST

Planning Doc should be finished - please get this checked today if you havent already.

REMINDER you need to focus on your role model going through one significant change, there can be other changes along the way but you need to have to base your assessment one

Start writing your assessment:

- use the writing structure in your Google Drive> L2HEA Folder > Structure 2.2 and the word bank on slide 61 to complete your essay
- For each paragraph you complete get this checked/signed off by Mrs Tamihere

Complete one on one with Mrs Tamihere - Teina and Sinclair only!

L2 HEALTH DO NOW mon 10/3

1. Have you completed your PLPP in Whanau Mentor?
 2. If not, please see me to do this.
3. If yes, when your PLPP is presented at LPC in Week 8 what would you like to discuss with your whanau about your learning pathway - write this down

L2 HEALTH DO NOW mon 17/3

1. Rate your motivation out of 10 when it comes to completing your 2.2 assessment to the standard you want to complete it at
2. Share it with the person next you

WHAT DO YOU NEED TO DO MAKE YOUR RATING HIGHER?

Timeline to complete 2.2

Week 8

- Starting & Completing Strategy Paragraphs

Week 9

- Completing Strategy Paragraphs
- Getting feedback once strategies are completed (especially if you are in Polyfest Group)

Week 10

- Final Feedback
- Proofreading

Week 11

- Final Editing, Proofreading, Finalising and Submission

2.2 excellence

Background (Achieved → Merit → Excellence)

- Selected role model

Risk & Protective Factors

- Evaluate Factors comprehensively - be critical on the influence the factors have had on the resilient role models ability to change and be resilient

2.2 exCeLLence

Risk & Protective Factors

- Interrelate changes and link
 - Mention in a summary paragraph how changes this person had to make link to other changes in their life/lifestyle
 - Explain how factors link with each other
 - Identify and explain the social determinants of health

Verbal Example

Tips:

How do the risk factors all link? How do protective factors all link?

How did the connection between protective factors build resilience and support the change the person is making?

Think about all your risk & protective factors and which social determinants of health they fit with. Consider going back to your planning doc and writing which social determinant of health each factor links to. Use resources/literature to support the social determinants identified

2.2 excellence

Strategies

- Critical in terms of change and resilience
- Each strategy needs explain how it will help the resilient role model now and in the future so they continue on their change journey and continue to build resilience

L2 HEALTH DO NOW mon 10/3

1. If we all finish our assessment before the end of term, what health content would you like to learn about in class
 2. Write it on a post it note and place it into the box at the front of class
- 

LEARNING OBJECTIVE WK 9

Use knowledge of risk/protective factors, strategies that support change and resilience

FAST FINISHERS - PART one

1. Go to your L2 Health Folder in Google Drive
2. Open the Health Extension document
3. Use the sentence starters to add this to your assessment

FAST FINISHERS - PART TWO

1. Read this [site](#) about the Te Whare Tapa Wha
2. Collect a A4 piece paper
3. Create a vision board in Canva put a photo of yourself in the centre of it and of all the things that contribute to you having good wellbeing/hauora

LEARNING OBJECTIVE WK 10

Use knowledge of risk/protective factors, strategies that support change and resilience

FAST FINISHERS - PART one

1. Go to your L2 Health Folder in Google Drive
2. Open the Health Extension document
3. Use the sentence starters to add this to your assessment

FAST FINISHERS - PART TWO

1. Read this [site](#) about the Te Whare Tapa Wha
2. Collect a A4 piece paper
3. Create a vision board in Canva put a photo of yourself in the centre of it and of all the things that contribute to you having good wellbeing/hauora
